The City of Waukegan invites you to participate in the first Public Workshop to help inform the New Comprehensive Plan.

The Plan is an opportunity for the people of the City of Waukegan to tell their story. The Comprehensive Plan will help the City achieve a distinct and unique identity - one that residents of the community recognize and support. The Plan may contain policies and strategies relating to land use, infrastructure, transportation, economic development, urban design, open space, and topics identified during the public input process. The Plan is not a law or a Zoning Ordinance, but serves as a guideline for community decision making. It will be used by the Planning and Zoning Commission, City Council, residents, developers, and other community investors to better understand your community's vision. **Have your voice heard!**

The Open House format is flexible! Come when you can anytime during the workshop to interact and inform the process in a comfortable setting. Refreshments will be served and families are welcome.
